

Health Equity: The New Urban Agenda and Sustainable Development Goals

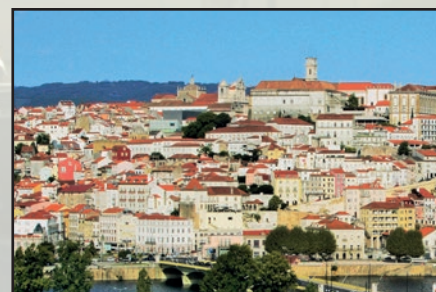

26-29 September 2017 • Coimbra, Portugal

“The only global conference focused on advancing the health of people living in cities worldwide.”

Join researchers, practitioners, policy-makers, health and urban stakeholders and community leaders to exchange ideas and advance research and practice that promote the health of individuals in urban settings.

Submit abstracts by 17 March 2017 on the following key themes:

- Urban governance and equity-oriented policies
- Understanding and addressing demographic, epidemiologic and societal change
- Healthy urban planning, measurement and metrics, data and research
- Environmental health and sustainability
- Health care - access, services and quality

Conference chairs

Paula Santana,
University of Coimbra, Portugal

Shamim Hayder Talukder,
President, ISUH;
Eminence, Bangladesh

Organised by:

 **#ICUH2017**

The International Society for Urban Health is the only global professional organisation in the world that focuses exclusively on the broad determinants of urban health. ISUH understands that the health challenges and opportunities in urban environments are complex. They require interdisciplinary collaboration among researchers, educators, policy makers, practitioners, community leaders, and urban health advocates in sectors such as urban planning, architecture, transportation, housing, and environmental health and others. **Learn more and become a member today.**
